Hendrey Chiropractic on Lake Kawana

For Dr David Hendrey of Hendrey Chiropractic on Lake Kawana his work reflects his commitment to his profession, the local community and his keen interest in sport. Since graduating in 1994 with a Bachelor of Applied Science (Chiropractic) Dr David has helped established Australia's busiest Chiropractic Centre for children, practiced in Ireland, Scotland and England; served as a member of the Chiropractors Association of Australia and is a popular spokesperson in his field. This year he was flown to Melbourne to provide chiropractic care for McLarens Formula 1 Driver Juan Pablo Montoya. In the past Dr David has been a team Chiropractor in national and international triathlon events. He has also represented Australia at the International Triathlon Championships in Mexico in one of his favourite sports. This year Dr David relocated to the Sunshine Coast to open Hendrey Chiropractic on Lake Kawana. The practice offers the latest chiropractic research, techniques and educational workshops and its lake-side location provides a tranquil setting for patients.

Dr David is also highly active in the community and on Saturday 26 August he will be battling the choppy waters in the Island Charity Ocean Swim Challenge from Mudjimba around Old Woman Island and back to Mooloolaba. He is swimming the 11.5 km circuit to raise money for the Currimundi and Nambour Special Schools and has raised \$1000.
